PUBLICATIONS

GAR BLOG

We share up-to-date assessments and analyses on developments in migration and asylum in Turkey and around the world with the public and researchers through our Gar Blog pieces.

READING LISTS

GAR prepares reading lists for students and junior researchers interested in migration studies.

ABOUT GAR

Founded on 21 September 2017, the Association for Migration Research (GAR) is comprised of academics working in the field of migration. They are dedicated to conducting and promoting interdisciplinary research on migration and asylum, ensuring the dissemination of knowledge produced in these studies. GAR is committed to raising awareness about the rights violations and vulnerabilities faced by migrants and refugees at all levels. Furthermore, the organization strives to create a public and democratic forum where the knowledge produced by researchers, civil society, migrants, and refugees can be openly discussed.

GAR ACADEMY

We embarked on this journey in 2020 with the goal of creating a space that allows for the production of free and innovative knowledge without profit motives, in an equitable, inclusive, and accessible manner. To date; over 5 years, 7 semesters, and 28 courses, 23 academics have lectured, and nearly 2000 participants have attended these courses.

SUMMER SCHOOL

We believe that discussing migration as a multifaceted social issue should be open to everyone, and we organize summer school programs

where we invite all undergraduate and graduate students interested in the field of critical migration and social cohesion.

RESEARCH

GAR conducts research projects and publishes reports that center on the rights of migrants and refugees, prioritizing a rights-based, evidence-based, and scientific approach to knowledge production and dissemination.

SEMINARS

Between 2017 and 2023, we organized seminars in collaboration with the Migration and Mobility Studies Group (AmiMo) at IFEA - French Institute of Anatolian Studies.

WORKSHOPS, CONFERENCES and LECTURES

We organize meetings with academics and researchers from Turkey and abroad who work in the field of migration; we also organize training programs for students, researchers, and civil society to support the production and dissemination of critical knowledge in the field of migration.
